THIRD CLAUSE

NATURE, OBJECT, DURATION AND CONTENT OF THE COPYRIGHT MANAGEMENT AGREEMENT. MEMBER RIGHTS AND OBLIGATIONS. KNOWLEDGE OF AND ACCORDANCE TO AIE BY-LAWS

1. The nature, purpose, duration and content of this management agreement is as set forth in article 15 of the AIE By-laws, which reads as follows:

Article 15.

COPYRIGHT MANAGEMENT AGREEMENT:

1. The copyright management agreement shall have absolute autonomy and independence with respect to the relationship of associate that, in addition, may link its grantor with the Entity.

In accordance with the provisions of article 156.3 of the Consolidated Text of the Spanish Intellectual Property Law and the penultimate paragraph of section 1 of article 4, in paragraphs 1) and 2) of section 1 of article 7 and section 1 of article 11 of the By-laws, all the provisions related to the copyright management agreement contained in these By-laws shall be without prejudice to the rights whose management should be exclusively managed by Intellectual Property Rights Management Entities.

Applications for the management or payment of rights and association, respectively mentioned in sections 3 and 7 of article 11, shall contain a literal systematized reproduction of the contents of sections 1 to 3 of article 4, of article 5, of article 7, section 9 of article 11, section 1 of article 12, section 1 of article 13, article 15, sections 1 and 3 of article 16, articles 17, 18, 19 and 22, of sections 2 and 3 of article 49, and articles 64 and 65 and concordant, of these By-laws. The association request shall also contain a systematic reproduction of the contents of section 2 of article 12, section 2 of article 13, sections 2 and 4 of article 16, and letter C) of section 3 of article 48.

The application, once completed and signed, will be considered, for all purposes, as a declaration from the applicant to enter into a contractual relationship with the Entity.

In turn, the agreement of the Board of Directors referred to in section 8 of article 11 shall be considered, for all purposes, as a declaration of will of the Entity for the contractual acceptance of the offer made by the applicant.

Therefore, from the moment the applicant becomes aware of the acceptance of their application, the contractual relationship will be concluded, in accordance with the provisions in articles 1,254, 1,258, and 1,262 of the Civil Code. Notwithstanding the aforementioned, the effects of the management agreement will be rolled back to the date of agreement by the Board of Directors.

2. The management agreement between the Entity and the applicant, signed in relation to the management of intellectual property rights held by the latter, shall be exclusive in respect to the rights, categories of rights, types of performances and fixations, modalities of exploitation and territories initially chosen by the right holder with the terms, conditions and limits established in the following:

A) The Entity may apply an extraordinary administration or collection discount depending on the specific scope of management conferred, as provided in section 1 of article 54.

B) In order for the right holder to exercise these rights with regards to their initial choice, partial extension, withdrawal or partial revocation and total revocation, the following definitions apply:

For this purpose, for the right holder to exercise their rights with regards to their initial choice, partial extension, withdrawal or partial revocation and total revocation, they must do so by choosing one, several or all of the following management areas:

2º. Management of all the intellectual property rights, generated outside of Spain, whose management must be carried out through intellectual property rights management Entities. Within this area of management, the right holder may choose, or withdraw, the management of all the rights they own, with respect to the entire territory of those States other than Spain that they wish.

4º. Management of all exclusive intellectual property rights generated within or outside of Spain, whose management does not necessarily have to be carried out by Intellectual Property Rights Management Entities.

D) Unless otherwise stated by the right holder, the management included in the areas of action defined in the previous sections 1), with respect to Spain, and 2), with respect to the territory of all other states in the world, will be entrusted to the Entity by means of this management agreement.

3. *The copyright management agreement will have an initial duration of 3 years, starting from the date of the acceptance agreement from the Board of Directors or from the date of any subsequent modifications.*

In accordance with the provisions of article 156.2 of the Consolidated Text of the Intellectual Property Law, the exclusive mandate conferred by the right holder to the Entity is irrevocable, for the entire period of its validity, and the Entity cannot terminate it by unilateral withdrawal, without prejudice to the provisions of section 3 of article 18 and articles 19 to 22, inclusive, of the By-laws.

The agreement will be tacitly and indefinitely extended for successive annual periods, unless expressly revoked by the right holder, which must be done by notifying the Entity, and addressed to the Board of Directors of the Entity, in writing, with an advanced notice of 6 months. The effects of the total revocation will be those regulated in sections 3, and if applicable section 4, of article 16 and will take place on December 31st of the calendar year in which the aforementioned notice period of 6 months has expired.

When the total revocation refers to, or includes, intellectual property rights generated within Spain, whose management must be carried out through Intellectual Property Rights Management Entities:

a) The request shall not take effect with respect to the intellectual property rights generated within Spain, whose management must be carried out through intellectual property rights management Entities, given that these are rights of an inalienable nature, whose management must be carried out through Intellectual Property Rights Management Entities.

a) When the modification is intended to expand the rights, categories of rights, types of performances and fixations, operating modalities and / or territories entrusted to the management of the Entity, it shall take effect from the date of agreement adopted by the Board of Directors.

b) When the modification is intended to reduce the rights, categories of rights, types of performances and fixations, operating modalities and / or territories entrusted to the management of the Entity, the request shall be considered a partial withdrawal or revocation of the management agreement, and regulations stated in section 3 of this article shall apply as far as the necessary notice, the date of effects, the effects of the revocation and its lack of effects in certain cases.

c) In both of the cases of letters a) or b) above, the act by the member of their rights of partial extension or partial withdrawal or revocation, must be done by choosing one, several or all of the management areas described in letter C) of section 2 of this article.

If the member maintains their will to exercise their right to withdrawal or partial revocation in terms contrary to the provisions of sections 2 and 3 of this article, it will be understood that what is intended is the total revocation of management and the Entity will proceed accordingly.

In the event that a modification of the By-laws approved by the Entity affects the conditions of the management agreement established therein, if the member does not show dissatisfaction with the modifications within 30 calendar days following its communication by the Entity, the approved modifications will be accepted and firmly incorporated into the contractual relationship, by way of modifying novation and in accordance with the provisions of article 1,203.1 of the Civil Code, and the management agreement will remain fully valid and enduring in all its terms until its extinction occurs.

5. In the event that amounts are owed to the member for rights that are already collected at the time the withdrawal or partial revocation or total revocation takes effect: (i) such amounts shall be paid at the moment the Entity makes the distribution of such rights to other rights holders; and (ii) the member shall retain the right to information on the issues referred to in article 158.4 of the Consolidated Text of the Intellectual Property Law.

1. Administered members have the following rights in their relationship with the Entity:

a) Choose initially, and subsequently extend, the rights, categories of rights, types of performances, territories and / or modalities of exploitation with respect to how they want the Entity to manage their rights, with the terms, conditions and limits established in section 2 of article 15.

b) Completely revoke the management granted to the Entity, or reduce the scope of said management through the act of their right to withdrawal or partial revocation, with respect to the part of the rights, categories of rights, types of performances, territories and/or modalities of exploitation granted to the Entity for management. All this, with the terms, conditions and limits established in sections 3 and 4 of article 15.

c) Receive from the Entity the net economic returns resulting in their favor from the distribution operations carried out by the Entity, statutory deductions having been deducted prior, as well as the tax deductions and repercussions that correspond in accordance with current legislation; and request the granting of loans, estimated distributions or provisional distributions, on account of future rights collected, with the requirements, conditions and limits established in the Distribution Regulation.

The economic returns corresponding to right co-holders shall be attributed, distributed and paid by the Entity to the co-owners in accordance to the percentage corresponding to each one as stated in the documentation given to the Entity. Each of the co-owners may, on their own, request from the Entity the granting of loans, estimated distributions or provisional distributions of future rights collected, with individual patrimonial responsibility for the debt incurred for such reason against the Entity and without prejudice of the exceptional case of joint and several liability regulated in the second paragraph of section (i) of letter c) of section 3 of article 16.

d) The right to receive or access information and / or documentation as an administered member, in the cases and in the manner and conditions established by law or in the By-laws present. At the request of the administered member, such information and/or documentation will be provided in paper form.

f) To assign via "inter vivos" legal transaction, in favour of another or other certain natural or legal persons, the economic revenues -having deducted the statutory deductions- that directly derive in his/her favour from the rights management carried out by the Entity.

Under no circumstances, the assignment of economic revenues directly or indirectly performed to the detriment of rights legally or judicially established as inalienable or un-waivable for performers shall be acceptable.

The assignment shall exclusively affect economic returns and in no case may it include the political rights that, where appropriate, correspond to the transferor, given the very personal nature of said rights. The assignee right holder shall retain the ownership of the rights, the condition and the category that they hold, as well as the section of votes that, if applicable, they have calculated until the moment in which the assignment is notified to the Entity, and will likewise keep their right to obtain additional votes derived from the allocation in their favor - exclusively for such purposes - of the economic returns that have been assigned by them.

In order to ensure that the assignment of economic returns is not carried out to the detriment of the copyright management agreement established between the Entity and the assignee right holder or to the detriment of legal or jurisprudential rights considered irrevocable or unavailable to the musical performers, the assignment -as well as its modification or revocation- must be requested from the Entity in a reliable manner, by means of a letter addressed to the Director General, in which the specific scope and duration of the assignment is indicated with utmost precision, and the complete identity of both the assignor right holder and the person or individuals or legal entities in whose favor the assignment is made and, where appropriate, of those affected by the modification or revocation, and which must also include their signature and, in the case of a assignment request, the signatures of that person or those people. The Permanent Commission may require the assignment to provide additional information or documentation that it deems necessary to adopt a decision on the acceptance or not of the assignment, its modification or revocation. The assignment, its modification or its revocation will take effect before the Entity only from the moment in which the Permanent Commission adopts an agreement to accept it, which will be notified by the Entity to both the assignor right holder and the assignee or assignees.

The assignment shall be applied to all the distribution of rights that the Entity agrees to after the aforementioned agreement from the Permanent Commission, whatever the accrual period to which the distributed rights correspond.

The assignment shall have the scope -total or partial- and the duration -temporary or indefinite-, expressly conferred by the transferor.

The assignment of economic returns in favor of the Entity itself shall be governed by the provisions of the second paragraph of article 51 of the By-laws.

g) Choose and modify, at any time, from the forms that the Entity has established, the form of payment of the aforementioned economic returns.

For this purpose, the right holder may even make payment authorizations in favor of third parties (natural or legal persons), temporary or indefinite, that must determine the specific economic returns that affect them, and the full identity of both the holder of rights being authorized as of the person or individuals or legal entities in whose favor the payment is being made.

Without prejudice to the aforementioned payment authorizations in favor of third parties, the authorizing right holder will continue to be considered by the Entity, for all purposes, as the holder of the economic returns affected by them.

In any case, as long as the right holder does not notify the Entity, reliably and in writing, any sort modification in the authorization or form of payment chosen previously, the payments made by the Entity shall be considered perfectly correct.

h) Consult and obtain a copy of the records of performances and fixations in which the right holder participates in any way.

- *The right holder who intends to grant the aforementioned authorization must be the sole holder of the rights to the performance being used or, where appropriate, have obtained prior written agreement of all of the other co-holders.*
- *The right holder must inform the Entity in advance about the conditions of the non-commercial authorization (written title of the specific performance or fixation that is intended to be used by the third party and description of the use, with indication of its non-commercial purpose and its temporal and territorial scope), prior to its concession since the Entity has initiated the management of the rights generated by the use of the performance or fixation that is intended to be authorized.*
- *Authorization must be granted free of charge.*
- *The authorization must be granted in relation to uses or acts of exploitation not related to an economic or lucrative activity.*

The scales for obtaining votes are those established in Annex A. The Board of Directors may modify said scales, by agreement of which will be communicated to the General Assembly and which shall take effect from the natural year following its adoption. Exclusively for the approval of proposals for the imposition of penalties for exclusion of the categories of Member and Active Member, submitted to the General Assembly by the Board of Directors, each member shall have only one vote;

In the event that there are payments of economic returns of less than 30 euros per distribution, said amounts shall be computed into the right holder's account until exceeding the indicated limit, in which case they will be paid according to the provisions in art. 19.2 above.

The Board of Directors may modify the amount established in the preceding paragraph without the need to modify the Distribution Regulations, provided that the new amount does not exceed a maximum of 90 euros per distribution.

However, the member whose balance does not exceed the minimum amount set in accordance with the above, may request at any time for AIE to pay the amount of said balance, and AIE shall be obliged to pay within a maximum period of 30 calendar days from the date of request, in which the member must express the chosen payment method. Payment is made in cash at one of the Entity's headquarters or by bank check collected in person by the member or sent by postal mail. If the member requests that the payment be made by bank transfer or any other form of payment, the member must bear the cost of using said means of payment, which will be directly discounted by AIE from the amount of the existing balance of rights in their favor.

2. The possible suspension of the payment of rights by AIE to the member is regulated in article 22 of the By-laws, which states:

Article 22°.

Said measure shall be notified to the right holder in question and may be maintained until the final resolution of the sanctioning procedure, without prejudice to its conversion and subsequent application, where appropriate, as a sanction that entails the suspension and withholding of payment of such returns, or in the final loss of them.

2. The same measure will be applied by the Entity during the processing of any cases opened in the framework of the Protocol of action in cases of error, inaccuracy or falsehood that affect declarations, provided for in section 3 of article 49.
